

ReportGenie QUICK START GUIDE

Congratulations on your purchase or evaluation of ReportGenie. ReportGenie is a powerful way to sort and report on the dictation files created with your DigiTel Dictation System.

On the enclosed CD you will find an installation program called “ReportGenie Full Installation 23xyy.exe” (where 23xyy is the version, read as 23.xx.yy) and a product manual called “ReportGenie Manual.pdf”.

Refer to the ReportGenie Manual for detailed information about installation, setup and use. If there is a newer version of the manual at www.DigiTelSoftware.com than the one on the Installation CD, **refer to the newer version**. If you need the free Adobe Reader program to open the manual, a link to it is available at www.DigiTelSoftware.com.

Installation & Setup:

1. If “www.DigiTelSoftware.com” has a newer version of the “Full Installation” program than the Installation CD, **use the newer version**.
2. Run the “Full Installation” program and follow its on-screen instructions (**setup in default directory only, and answer “Yes” each time asked “do you want to keep this file?”**).
3. Next, run ReportGenie. It will run in Evaluation mode for 30 days or until you enter a License Key into its Registration menu.

License Key:

To receive your ReportGenie License Key via Email, please email the “**POP Number**” (found on the ReportGenie installation CD or provided to you by your DigiTel reseller) and the “**Lock Number**” found in ReportGenie’s File/Registration menu to Keys@DigiTelSoftware.com.

Technical Support:

If you need technical support or to purchase a ReportGenie License Key, please contact your DigiTel reseller or email Support@DigiTelSoftware.com.
